# ANGELA KUNG

**Angela Kung Acupuncture & Wellness Center**

Hello **Angela Kung**,  
We're super excited to have you on  
the cover of *Soeleish O.C Magazine*  
"JUNE 2025"  
Let's jump right into this interview.

**Del Wayne:**  
*When did your journey Doctor,  
Acupuncturist and Spiritual Healer  
begin?*

**ANGELA KUNG:**  
I believe every soul's purpose begins  
the moment we arrive on this Earth.  
My journey wasn't just a career path

— it was a divine unfolding. Every joy,  
every heartbreak, every triumph and  
challenge shaped me into the healer I  
am today. From as early as age six, I  
was fascinated by the human body. I  
became an elite figure skater and told  
my parents I would become a doctor.  
When I was injured, I intuitively used  
my own hands to heal myself. Other  
times, my mother took me to an  
acupuncturist — those experiences  
left an imprint on my spirit. Later,  
as I prepared for traditional medical  
school, I had a moment of truth:  
Western medicine didn't align with

how I knew the body and spirit truly  
healed. Six years after completing my  
pre-med program, I finally answered  
the call and enrolled in acupuncture  
and Chinese medicine school. As  
for the spiritual healing? That gift  
came from walking through the fire  
myself. The deeper I healed from  
emotional and spiritual trauma, the  
more I awakened to a truth: dis-ease  
is not just physical. It begins in the  
spirit. And healing the spirit unlocks  
the body's full ability to thrive. My  
true calling has always been to serve  
humanity with love, wisdom, and the

miracle of healing — and this path has  
only just begun.

**Del Wayne:**  
*Tell us about your Wellness Center.*

**ANGELA KUNG:**  
My wellness center was built on  
the rock of Christ — quite literally a  
miracle in motion. I founded Angela  
Kung Acupuncture & Wellness Center  
in 2010 after reaching a turning point  
in my life. I was walking a dark path  
and realized I couldn't save myself by  
my own strength. That's when I found
